### Small Business Financing – Access to Capital

Does your business need money for working capital, inventory, equipment, leasehold improvements, renovations or expansions? Are you thinking of purchasing property for your very own business facility? If you answered **YES** to any of these questions then you should attend this briefing! By attending, you will learn how to access needed capital. Instructors will define the importance of credit, planning, and preparation – three key elements in securing a small business loan. In addition, hear about SBA's guaranty loan programs and how they can be an option for your financing needs. SBA assists eligible start-ups and existing businesses with financing as well as business counseling and training. All are welcome!

**NO COST TO ATTEND - RSVP REQUIRED**
